MAX ROLLITT

Stoneware Lamp

SKU: B-STONL

DETAILS

Hand thrown on the wheel by a passionate local ceramicist, the form of the Stoneware Lamp is borrowed from some of Max's favourite antique ginger jars. There is no elaborate decoration here, instead our Stoneware Lamp is left unglazed, emphasising the form and giving the lamp a wonderfully tactile quality. The material of the lamp responds well to changing light levels throughout the day, appearing bright white in some environments and at other times a subdued stone colour. Although pictured here with a plain shade for reference, the subtle tone of the base makes it a wonderful vehicle for a more elaborate shade.

- Wired with a braided flex and fitted with an in-line rocker switch.
- Available with either a standard or 5A plug.
- Can be wired for the US, including UL listing, for an additional fee.
- Pair it with our Malabar Lampshade.
- Made in the UK.

DIMENSIONS

Diameter	20cm (8 inches)
Height to top of bulb holder (approx.)	38cm (15 inches)

HOW TO ORDER

We try our best to keep lighting in stock and prepped for swift delivery. To find out pricing and availability of the Stoneware Lamp, please press the 'ENQUIRE' button or email bespoke@maxrollitt.com, and specify the wiring/plug(s) required.
