Veere Grenney Associates

Whether they know it or not, many of the interior designers in *House & Garden's* Top 100 will have, in some way, been influenced by Veere Grenney, the master of decorating who's been at the forefront of the industry for over 30 years. In the February 2023 issue of *House & Garden*, he wrote about the importance of comfort and, according to his co-director Natasha Greig, the first step to achieving this is 'getting the floorplan right'. They put this theory – and far more – into practice in all projects. These currently include a newbuild in Jerusalem and a 1930s Regency-style house in London.
